Subject: Price Increase Notification

To all our valued customers,

As a result of an additional increase in the cost of raw materials from our suppliers, Jura Films North America will be adjusting the price of all our Surlyn based films by approx. 5%-9%. This increase will take effect with orders placed on **February 1st, 2022**.

This increase is to compensate for the further rising costs in raw materials, energy, and transportation.

Thank you for your partnership and continued support,

Mike Presecky
