

February 14, 2022

Dear Laminations Customer,

Our operations are once again challenged with increased costs of paper, labor, and transportation. Our paper mill suppliers have implemented paper increases effective with shipments in the coming weeks. Likewise, the cost of diesel fuel, shortage of drivers, and escalation in labor costs are also a contributing factor.

As a business necessity, Laminations® is announcing a price increase of 9% on new orders effective with shipments on or after March 14th. This increase applies to all Laminations products including: VBoard®, VGuard®, UChannel®, SureCrate®, SureContainer®, FlexBoard®, FlexRoll®, PerfBoard®, VChannel®, QuickStik®, EBoard®, and related products. This price increase announcement supersedes any outstanding quotations prior to this date.

Our team of Account Managers, Account Coordinators, and Packaging Engineers stand ready to help you obtain the best value in protective packaging solutions. We will continue to work diligently to meet our delivery commitments and provide you with best-in-class service.

Sincerely,

John Laabs
Vice President, Sales
