March 8, 2022

To Our Valued Customers,

Current disruptions in the global energy markets have pushed oil and natural gas feed stocks to near record levels in recent weeks. These raw material input costs combined with supply chain challenges have forced raw material suppliers to implement their previously announced March 1st, 2022 price increase.

Due to the March 1st resin increase Berry Global will implement a price increase of 6% on all Stretch Film products. This increase will take effect with all orders placed on or after March 28th, 2022. Please note this increase is in addition to the freight surcharge previously announced with the letter dated March 1st, 2022. Berry Global reserves the right to limit the size of orders to historical quantities to better serve the anticipated demand of our customers. All orders must call for immediate delivery.

Berry Global will work closely with you to manage the impact of these price adjustments and keep you abreast of changing market conditions. Your local sales professional is always available to answer any questions you may have.

Thank you for your business and continued support.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brian Ochsner", written over a light blue horizontal line.

Brian Ochsner

Vice President of Sales – Stretch Film
Berry Global – Engineered Materials Division
