

3/11/2022

Dear Valued Distributors,

Our resin costs have increased considerably in the past few months. We are now forced to increase our polypropylene strap pricing by 9%, effective March 15th., 2022. When the resin market stabilizes, we will adjust your pricing accordingly. All orders received on or after this day will receive the new pricing.

Strapack will accept orders for normal buying patterns. All orders will be subject to Strapack approval.

Please discuss with your sales manager should you have any concerns or questions.

We thank you for your continuous support of Strapack machinery and strapping.

Sincerely,

A handwritten signature in black ink that reads "James R. Guida".

Jim Guida

Corporate Sales Manager

Strapack, Inc.
