

May 16, 2022

Dear Laminations Customer,

Our paper mill suppliers have implemented paper increases effective with shipments in late May or early June, necessitating a price increase for our converted products. The increased cost of labor and transportation are also contributing factors.

Laminations® is announcing a price increase of **+9% on new orders effective with shipments on or after June 13, 2022**. This increase applies to the majority of our Laminations products including: VBoard®, VGuard®, UChannel®, SURECrate®, SUREContainer®, FlexRoll®, PerfBoard®, NotchBoard®, VChannel®, QuikStik®, EBoard®, and related products.

We've incurred significantly higher labor costs on our FlexBoard® product line. **ID and OD FlexBoard® orders will incur a +18% increase on both new and existing orders shipping on or after June 13<sup>th</sup>**.

This price increase announcement supersedes any outstanding quotations prior to this date. Our team of Account Managers, Account Coordinators, and Packaging Engineers stand ready to help you obtain the best value in protective packaging solutions. We will continue to work diligently to meet our delivery commitments and provide you with best-in-class service.

Sincerely,

John Laabs  
Vice President, Sales
