

February 14, 2023

To Our Valued Customers,

Our resin suppliers have informed us that the previously announced January 1, 2023, increase will be implemented. In addition to the January increase, they have informed us of additional increases in February. The growing export market, the reduction of resin inventories, and increased additional costs have contributed to these increases.

As a result of the January resin increase, Malpack will implement an increase of 5%, effective with any and all orders entered on February 27, 2023.

All orders must call for immediate delivery. Malpack reserves the right to accept or decline any order for any reason.

Your Malpack Sales Representative will be in contact with you to answer any questions you may have and will continue to advise you of the changing market conditions. Thank you for your continued support and loyalty.

Regards,
